## PROFESSIONAL SUMMARY

A highly motivated and results-oriented **Next.js Developer** possessing **over three years of professional experience** in designing and deploying dynamic, high-performance, and visually precise web applications. Proficient within the **React/Next.js ecosystem**, I demonstrate expertise in translating intricate design specifications into seamless, responsive, and scalable user interfaces. I am deeply committed to leveraging modern frontend technologies, best-in-class component architecture, and adherence to best practices to deliver exceptional user experiences and maintain meticulously clean, optimized codebases.

## TECHNICAL SKILLS

Category	Skills
Primary	<b>Next.js, React.js, JavaScript (ES6+), Redux, React Hooks, Advanced State Management</b>

<b>Styling/UI</b>	CSS/SCSS, Responsive Web Design Principles, Component-Based Architecture, UI/UX Design Principles, <b>Tailwind CSS</b>
<b>APIs/Tools</b>	RESTful API Integration, Git/Version Control, Webpack/Babel, Professional Frontend Build Tools, Debugging, Code Optimization and Performance Tuning
<b>Other</b>	Node.js, Web3/Solidity (Foundational), Three.js/React-three-fiber, Performance Optimization, Cross-Browser Compatibility

## 🚀 SELECTED PROJECTS Decentralized Todo Application (dApp)

- **Technologies:** Solidity Smart Contract, React.js, Web3.js, MetaMask Integration
- Engineered a comprehensive full-stack decentralized application (dApp), integrating a **React.js** frontend with a **Solidity Smart Contract** deployed on the Web3 mainnet.
- Implemented secure user interaction protocols by integrating **MetaMask wallet connectivity** to process transactions and verify operations directly via the smart contract, thus ensuring data immutability.
- *Link: <https://todo-d-app-iota.vercel.app/>*

## Professional Portfolio (3D Interactive Experience)

- **Technologies:** Three.js, React-three-fiber/Drei, React.js
- Developed a high-performance, single-page application utilizing **Three.js** and **React-three-fiber/Drei** to construct a sophisticated, interactive 3D environment for professional presentation.
- This project showcases advanced proficiency in integrating complex graphics libraries within the React framework for contemporary web branding and visualization.

## Spotify Service Clone

- **Technologies:** React.js, Spotify API, OAuth 2.0 (for authentication)
- Constructed a fully functional replicate of the Spotify platform, focusing on robust

integration with the **Spotify API** to manage music streaming and user authentication (Login/OAuth).

- Emphasized **responsive design** and a clean, modular component architecture, resulting in a cohesive and aesthetically pleasing experience across various devices.

### **Movie Hub Platform**

- **Technologies:** React.js, The Movie Database (TMDb) API, Custom Authentication System
- Created a scalable platform for movie and TV series exploration, leveraging the **TMDb API** for extensive data retrieval and robust search functionality.
- Implemented a comprehensive search system and designed a **custom authentication mechanism** to manage user access and personalization, supporting a production-ready application environment.

### **ACADEMIC BACKGROUND** Master of Business Administration (MBA) - Foreign Trade

- DAVV, Indore (M.P.) | *July 2019 - June 2021* | Grade: 72%

### **Bachelor of Commerce (B.Com)**

- Arihant College, Ratlam (M.P.) | *July 2016 - June 2019* | Grade: 61%

### **PROFESSIONAL DEVELOPMENT & CERTIFICATIONS**

- **Microsoft Azure Workshop** (October 2023) -
